

Instalación de Ready API

1. Descargar el free trial de ReadyAPI
<https://smartbear.com/product/ready-api/free-trial/> para esto deberán registrarse:

The screenshot shows the ReadyAPI website's registration page. At the top, there's a navigation bar with links for Products, Solutions, Resources, Careers, and a Login button. Below this is a secondary navigation bar with links for ReadyAPI, Features, Integrations, Resources, Why ReadyAPI, ROI Calculator, Pricing, and a prominent 'Start My Free Trial' button. The main content area is titled 'Accelerate API Quality Through Testing' and describes the platform as an easy-to-use, no-code API testing platform. It lists several benefits: automating end-to-end tests, running compatible load tests, enabling virtualization for parallel testing, and creating security tests. A 'Start Your Trial Now' form is highlighted with a red border, containing fields for Work Email, First Name, Last Name, Company, and Phone. Below the form is a 'Start Trial' button. A privacy notice is also visible at the bottom of the form.

2. Una vez registrados, la descarga inicia automáticamente:

This screenshot shows a portion of the ReadyAPI website's navigation bar, which includes links for Features, Integrations, Resources, Why ReadyAPI, ROI Calculator, and Pricing.

Thank you for trying the **ReadyAPI Platform**.

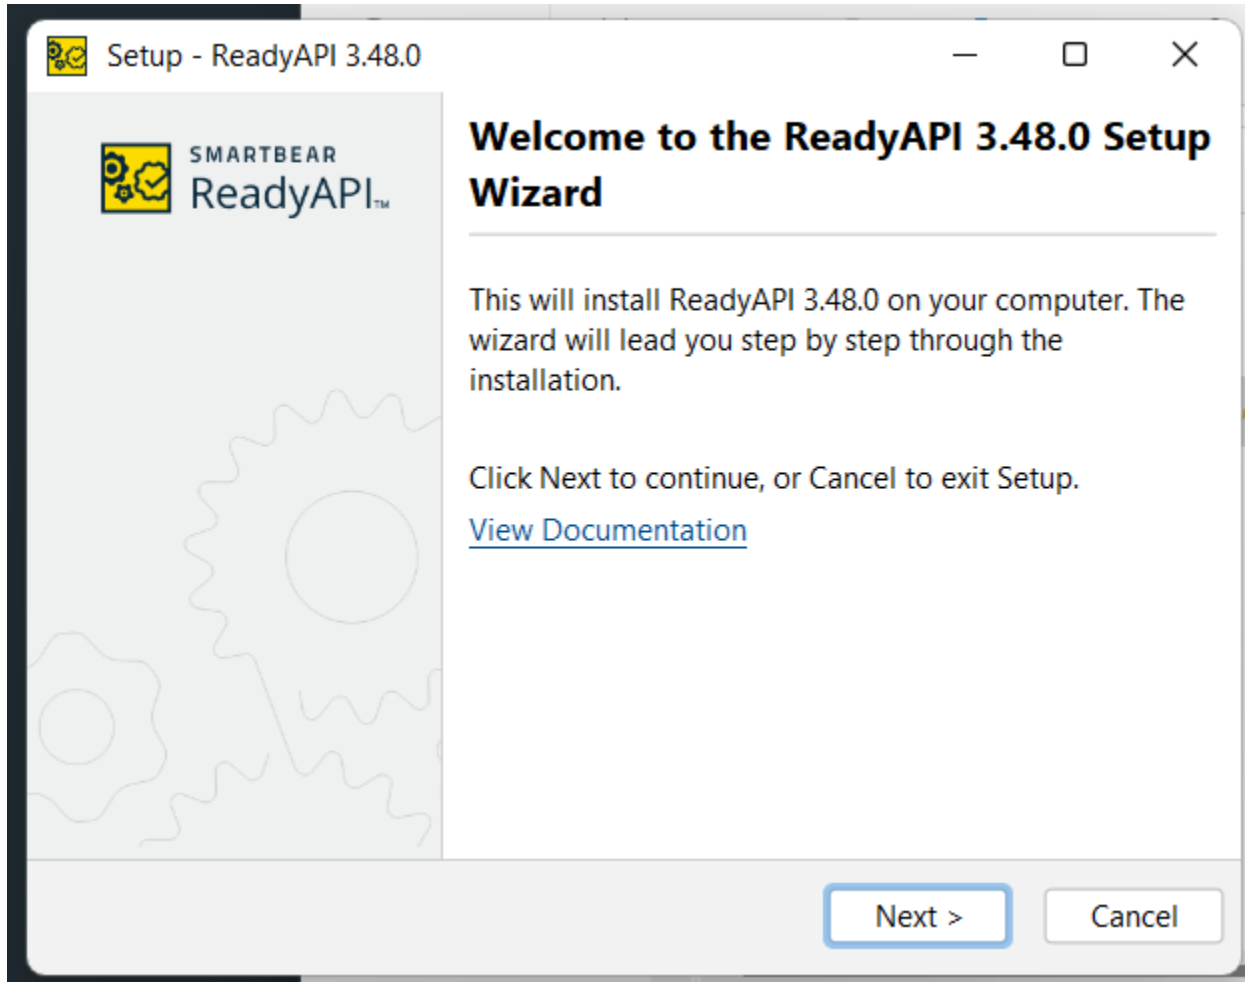

To activate your free trial license, simply run the installer and open ReadyAPI.

(If your download hasn't started automatically, please click [here](#).)

3. Cuando la descarga se complete deberán ejecutar y seguir los pasos del instalador:

4. Luego de la instalación, al iniciarlo deberían ver la siguiente información y al cerrar esa ventana está listo para utilizarse:
